### To Keep the Face Fresh, Clear, Youthful

More important than the cosmetic care of the complexion is its physical care. To keep the face clean, fresh, youthful, there's nothing better than common mercolized wax. It absorbs the soiled or faded worn-out skin particles. Cosmetics simply add unwhole someness to the complexion. That's the difference. By all means, a quire the mercolized wax habit. It's so easy to get an ounce of the wax at the druggists, apply at night like cold cream and wash it off next morning. There's no detention indoors, the old skin coming off so gradually no one suspects you are using anything. When in a week or two the alluringity youthful, rose-like underskin is fully in viewwell, you won't want, or need, a miskenp complexion after that. It must be apparent that this process means complete riddance of all cutaneous blemishes, like freckles, pimples, blotches and blackheads.
